Suvil KEiPad BT

"The extra slim Bluetooth keyboard for iPads"

KEiPad BT from **Suvil Technologies Corp** is a Bluetooth keyboard with a size suitable for Apple iPads. However, it can also be used with any computer and the iPhone 4.0.

KEiPad BT is very stylish and ultra slim, with keys designed to a high quality "scissors-type" mechanism, making the typing action smooth and comfortable.

KEiPad BT has a mini LED that lights up blue when switched on and off, and an intermittent green when paired with another Bluetooth device.

The keyboard contains 78 keys of which 13 are for multimedia and multifunction (volume keys, turn music on/off, previous and following track, virtual keyboard, etc).

It runs off two AAA batteries, which last about 45 hours in continuous operation and 350 hours on standby.

The price of the **Suvil KEiPad** is **€29** (incl VAT).

Suvil KEiPad BT

"The extra slim Bluetooth keyboard for iPads"
